

NEWBURG STRONG PERSONAL LETTER OF COMMITMENT

I _____, as an active member of the Newburg community genuinely and wholeheartedly promise to maintain and uphold the ideals appropriate for my community in relation to alcohol and substance abuse. These ideals include encouraging, upholding and promoting an alcohol and substance free environment within my sphere of influence around other youth as myself. Not only do I believe in these ideals and their worth, but I also believe strongly in my community's ability to carry them out. Therefore, I now formally state my commitment to stay free of alcohol and other substance use throughout my involvement in the Newburg community and abroad.

I recognize the fact that as a member of my Newburg community, other youth will be looking to me to set an example by making healthy choices. I also realize this will not be an effort that I will partake in on my own but that I will have a support network of fellow Newburg members within this community who will join me in the fight against alcohol and substance abuse amongst the youth.
